## **I. CISDI AND OUR CULTURE**

CISDI is a full-service Center of Expertise that advances health system strengthening and development through community-engaged approaches, targeted research, policy advocacy, and campaigns. Our vision is to set and implement health system standards, leaving no one behind by driving a systemic, evidence-based transformation of Indonesia's and other countries' health systems. We work in close collaboration with international institutions, governments, donors and private sector partners to support PHC systems and ensure robust and public-oriented policies are set and subsequently implemented.

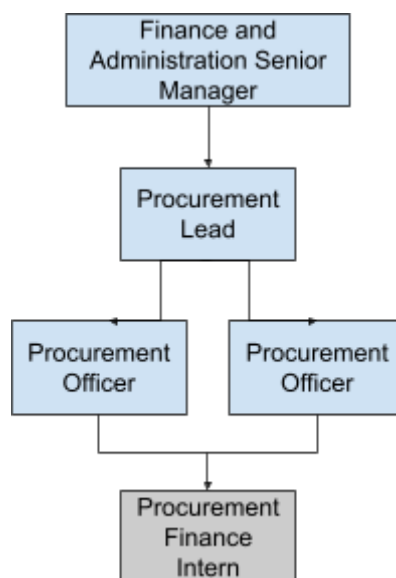

CISDI is structured into five fully integrated units providing advisory and MEL, policy advocacy, knowledge production, behavior change communication, implementation excellence, and digital health services. During the last 5 years CISDI has nearly tripled in both size and scope. While other Civil Society Organizations and NGO's have been adversely affected by USAID's closure, CISDI has expanded rapidly. We are positioned to continue this growth trajectory by expanding into new business sectors with service offerings driven by donors and private client's requests. To ensure we operate internally to the same high standards we perform externally, we embarked on an aggressive organizational-wide transformation aligning our internal policies, processes, procedures and systems to meet these changing market dynamics.

CISDI's corporate culture is our "Super Power". We hire highly intelligent professionals who thrive on challenges. Our professionals are given the freedom to express their creativity by solving complex healthcare sectoral issues often working on problems that other organizations may not have tried or have failed. Our people thrive in a collaborative work environment where ideas are heard and acted upon regardless of level or length of employment. Work-Life balance is not just talk but is embedded into our operating models, policies and procedures. It is who we are.

## **II. SUMMARY OF ROLE**

The Procurement Finance Intern supports daily procurement and finance administration processes by assisting with purchase requests, vendor coordination, document filing, payment tracking, and procurement compliance. Reporting to the Procurement Officer and Finance & Administration Senior Manager, this role helps ensure procurement activities are properly documented, timely, and aligned with organizational procedures and operational needs.
